## SUMMARY

I'm a passionate developer with 6 months of experience in React.js, Python, and MySQL. Skilled in building dynamic web applications and efficient back-end systems, I thrive in full-stack development. I'm committed to continuous learning and adapting to new technologies. Eager to contribute to innovative projects and further develop my skills.

## PROJECTS

### **Milk Vending App – Full Stack Collaborative Project**

**JULY 2025**

- An online milk ordering platform with 5 role-based users: Super Admin, Admin, Vendor, Distributor, and User.
- Super Admin & Admin: Manage masters, inventory, routes, slots, and sales.
- Vendor: View and manage inventory.
- Distributor: View assigned deliveries, update delivery status and user info.
- Technologies used :- React JS, FastAPI, SQLAlchemy, SCSS and AntDesign.
- Built with role-based authentication, inventory/slot routing logic, and delivery management dashboards.

### **Doctor Appointment Booking App ( Full stack ) - [Live link](#)**

**DEC-2024**

- A platform for creating and managing doctor's Appointments, with core features like
- booking, Payment, Admin Panel, Doctor Panel and user Interface.
- Technologies used :- React JS, Express JS, Mongo DB, Tailwind CSS.
- Payment Gateway :- Razor Pay.

### **ChatsApp – RealTime Chat Application (Full Stack) - [Collaborative Project](#)**

**NOV-2024**

- Developed a full-stack real-time chat application using React.js, Tailwind CSS, and Firebase, enabling seamless one-to-one messaging.
- Integrated Firebase Authentication for secure login/logout functionality and personalized user sessions.
- Implemented real-time messaging and image sharing via Firebase Firestore and Storage, ensuring smooth user communication.
- Built dynamic user status tracking (online/offline) and friend search features to enhance social interactivity.
- Collaborated in a team environment, contributing to UI design, state management, and Firebase integration.

### **Multi-Vendor eCommerce Platform**

**JUNE-2025**

- Developed a feature-rich frontend using React.js with TypeScript, styled using SCSS and Ant Design components.
- Implemented role-based interfaces for Admin and Sellers using mock APIs for simulation.
- Sellers can add, edit, and delete products, and view their own sales and order history.
- Admin can approve/reject products, manage orders, and monitor system-wide metrics.
- Designed responsive layouts and interactive dashboards for a seamless user experience.
- Tech Stack: React.js, TypeScript, SCSS, Ant Design, Mock API

## EDUCATION ,INTERSHIPS AND SHORT COURSE

React Developer - Frontend Engineering  
M-GURU - Vilankurichi, COIMBATORE

MAR-JULY 2025

Python Full Stack Development  
IDMTECHPARK-GANDHIPURAM , COIMBATORE

JULY-FEB 2025

Bachelor of Science in Computer Science (CGPA -7.4)  
BISHOP AMBROSE COLLEGE - BHARATHIAR UNIVERSITY

JUN 2021-JUN-2024

## ADDITIONAL INFORMATION

- Technical Skills:- React JS, TypeScript, Redux, Sass, Tailwind, Python, Express, Flask, MongoDB and MySQL.
- Internships:- React Development - Frontend Engineer - (M-GURU - COIMBATORE).
- Certifications:- Python Full Stack Development - (IDM TECH PARK - COIMBATORE).
