SUMMARY

I'm a full-stack developer with a 4-month React.js internship, a Python full-stack development certification, and a 6-month full-stack development certification. Skilled in building scalable applications using React, Redux, TypeScript, Python, and MySQL. I'm quick to adapt, focused on clean code, and driven to contribute to impactful, real-world projects.

PROJECTS

Milk Vending App – Full Stack Collaborative Project

JULY 2025

- An online milk ordering platform with 5 role-based users: Super Admin, Admin, Vendor, Distributor, and User.
- Super Admin & Admin: Manage masters, inventory, routes, slots, and sales.
- Vendor: View and manage inventory.
- Distributor: View assigned deliveries, update delivery status and user info.
- Technologies used :- React JS, FastAPI, SQLAlchemy, SCSS and AntDesign.
- Built with role-based authentication, inventory/slot routing logic, and delivery management dashboards.

Doctor Appointment Booking App (Full stack) - [Live link](#)

DEC-2024

- A platform for creating and managing doctor's Appointments, with core features like booking, Payment, Admin Panel, Doctor Panel and user Interface.
- Technologies used :- React JS, Express JS, Mongo DB, Tailwind CSS.
- Payment Gateway :- Razor Pay.

ChatsApp – RealTime Chat Application (Full Stack) - Collaborative Project

NOV-2024

- ChaiBi is a real-time chat application that enables users to seamlessly manage profiles, send and receive images, and track online/offline status. Integrated user-friendly features such as secure login/logout, friend search functionality, and personalized profile views. Focused on delivering a smooth and intuitive chat experience, enhancing social connectivity and user interaction.
- Technologies used :- React JS, Tailwind CSS and Firebase for DB and chat Storage.

Multi-Vendor eCommerce Platform

JUNE-2025

- Developed a feature-rich frontend using React.js with TypeScript, styled using SCSS and Ant Design components.
- Implemented role-based interfaces for Admin and Sellers using mock APIs for simulation.
- Sellers can add, edit, and delete products, and view their own sales and order history.
- Admin can approve/reject products, manage orders, and monitor system-wide metrics.
- Designed responsive layouts and interactive dashboards for a seamless user experience.
- Tech Stack: React.js, TypeScript, SCSS, Ant Design, Mock API

EDUCATION ,INTERSHIPS AND SHORT COURSE

React Developer - Frontend Engineering

MAR-JULY 2025

M-GURU - Vilankurichi, COIMBATORE

Python Full Stack Development

JULY-FEB 2025

IDMTECHPARK-GANDHIPURAM , COIMBATORE

Bachelor of Science in Computer Science (CGPA -7.4)

JUN 2021-JUN-2024

BISHOP AMBROSE COLLEGE - BHARATHIAR UNIVERSITY

ADDITIONAL INFORMATION

- **Technical Skills:-** React JS, TypeScript, Redux, Sass, Tailwind, Python, Express, Flask, MongoDB and MySQL.
- **Internships:-** React Development - Frontend Engineer - (M-GURU - COIMBATORE).
- **Certifications:-** Python Full Stack Development - (IDM TECH PARK - COIMBATORE).
